a **Nanobody and lysozyme**
PDB 1MEL, chains A and L

b **Fab and spike S1 domain**
PDB 7Z0X, chains H, L and R

c **Intact IgG, four chains**
PDB 1IGT, chains A to D

antigen | heavy chain | light chain | second copy, heavy | second copy, light

Deposited structures from the PDB. Colours follow the role, not the entry.
